Hypnosis: Powerful And Fast Working Hypnosis Techniques To Hypnotize Anyone Now !

Synopsis

HYPNOSIS 3rd EDITION: Powerful And Fast Working Hypnosis Techniques To Hypnotize Anyone NOW! Are you tired of feeling anxious, depressed, angry, or as if you don't have the motivation to complete your goals? Do you think it would be fun to use the power of suggestion on your friends? Do you want to learn how to use that power of suggestion in order to complete your goals in life? Would you like to learn more about the powerful technique of hypnosis? Hypnosis has been around for thousands of years. In fact, humans have been hypnotizing themselves long before they began hypnotizing others. Our usage of hypnosis has expanded out of simply learning to relax ourselves into the realm of learning how to control our subconscious minds. We've also mastered the ability to control the subconscious mind of those around us through hypnosis, and you can learn this powerful technique, too! In this book, you'll learn: All about how hypnosis originated and what it's currently used for today Medical benefits to hypnosis The basic steps to performing hypnosis on another person How to hypnotize your friend today Instant hypnosis techniques And how to hypnotize yourself for success! So if you want to learn how you can hypnotize yourself and your friends, scroll up and grab a copy of Hypnosis: Powerful and Fast Working Hypnosis Techniques to Hypnotize Anyone Now!

Customer Reviews

There are some great and fun techniques to be doing hypnosis. I have heard and read that hypnosis has some physiological effects as sometimes the mind has so much power over the body at times. There have not been great resources out there for me to learn about hypnosis and the use of it's techniques so I am glad I found this ebook. It is awesome!

I was kind of septic before reading this book , but after starting reading it i realized that this book was well structured and giving real information with some stuff that i didn't even know , i liked the honesty from the author and the shown researches about hypnosis , this book also deals with the myths of Hypnosis that people may believe with what's shown in the media ,i recommend this book to anyone looking to know better hypnosis !

This hypnosis book is so interesting!! This one time in elementary school, they had a guest speaker hypnotize 5 students and it was the craziest experience ever. Luckily for me, it wasn't me because that seemed really scary but it was crazy to watch. This book dives into the basics of how people are hypnotized and how you can hypnotize others!

This was a very thorough guide on how to hypnotize. I really enjoyed learning the idea behind it and how I can really make this work for me and others. I always found it interesting and I'm excited to test it out to see how it works. The instructions in this book are very thorough so I know I'll be able to set up a hypnosis session very soon. I'll mainly be using this for the greater good, trying to eliminate some of the bad in life. I'm a little afraid, but I'm excited to try.

Excellent book on hypnosis.I started reading the book with certain ideas but after reading the book had a much better understanding of the topic.There is alot to hypnosis that can be helpful to various problems!

Something like this should not be forgotten and it should be used more often in any kind of situations. The information this book gives is truly something you'd love to treasure because most of the hypnotising artists DON't want their tricks to be revealed. I guess author was really friendly to share some of the best part of that hypnotising psychology with everyone.

When you and some of your friends get together and just want to have some fun, I'd say use your newly learnt skills and show off. I did the same when I hypnotised one of my friends and he just had no idea of all the things I made him do. Perfect book for people who want to use their knowledge for fun

I've always had problems with my sleep. I didn't know what to do. I counted sheep, I counted from

backwards, i even listened to calming music but none of them seemed to have worked. After I convinced myself that I was able to sleep, two minutes had not passed and i was sleeping already.
