Customer Reviews

A real page turner for sure! I thoroughly enjoyed reading this book. Not only informative but what I read gave me an intricate glimpse into the dating world. I never knew how much body language and other idiosyncrasies played a part in dating. After reading this spectacular book, I am confident I can get out there and find my soul-mate. I am so glad I read it. Well worth the read!

I never understood the idiom, head over heels. If you're standing, isn't your head always over your heels? Well, that was the only thing confusing about this book. When thta spark has gone from your

relationship. men want to go back to the first month you dated. This book just tells you to become that woman again emotionally, and sexually.

A definite must read! Sandra granger brings a new light on ways to attract men using your body language versus just your looks. I found this book to have some great advice!
