Customer Reviews

Could have been a decent story but too much money especially when the author does not use appropriate words. Using the word "sowing" when it should be sewing and "adverted" when it should be averted makes me think that they pull a stranger off the street and ask them to write a book without making sure they understand the basics of the English language. If you read this series be prepared to pay a fortune for a low class experience. Be prepared to misunderstand as the writer is unable to comprehend the English language and use appropriate words. I am embarrassed on behalf of this writer due to the fact that he/she appears to be uneducated. Thankful I received the

first part for free, part 2 I made the mistake of purchasing in hopes the book would have been proof read before publishing, but not the case. The fact that by the time I purchase the series I will have to pay triple what I would pay for a good quality read? No thank you!

You want me to continue reading a "book" at \$2.99 that's maybe 2 chapters? How about you actually finish a whole book and then I'll get it. I'm sorry, but I am so sick of authors trying to convince the reading public that 2 chapters is worth 3 bucks. You wrote well and could have seen reading more of your work, but not as is

I loved the story line but I didn't like that it was only 76 pages. It's almost more of a teaser than a book. In order to read the rest of the story, you have to purchase the other 4 books. It would be 5 stars if all 5 books were one and you didn't have to pay for each section of the book.

Was going to get this but 3\$ for 54 pages. That is a rip off.

Loved this first book!! I feel it should have been longer! Book was entirely too short! But still liked it and will buy the others, but I think I will look to see how many chapters are in a book from now on.

This is the 2 nd book of the Billionaires series. Jax asks Kendra to move in the Penthouse permanently to take care of Tyson. He is very attracted to her and she is becoming attracted to him but both know it is not a good idea . Jax and the family to the desert to look for the black box to see how the plane crash happened. Please read this book #2 to find out more of the story.

I've been so busy lately that I have not read any book for over 6 months and reading the series just made me realize how much I missed reading. This book was funny, delightful and a wonderful short story,

I think the author divided his series up into too many books. It actually could have been one whole book. I realize the author was trying to make money however, I think it should have been just one book!!!!
