Customer Reviews

A daily log with gloriously detailed descriptions of the first Iditarod sled dog race won by a woman, and well-written by her. She puts you on the snow and through storms of the frozen north, right alongside her.

very gripping. It was as if I were there in the race. Being from Michigan, I understand sub zero weather

When I finished the race, I felt like I had personally been there and knew the dogs as friends.

Arrived on time as expected and I can't wait to get started reading this book.

Good true life story.
