Customer Reviews

I chose this book because I found myself getting frustrated with waiting on a suitable mate and began to think that there were no such thing. That relationships now days aren't attainable without disrespect, infidelity and selfishness. After reading this book, I'm glad to know that my waiting isn't in vain after all. There is no shame in waiting on the one God intends for you, and I'm doing myself a favor by not wasting time with the wrong man but instead getting myself, my heart and my faith prepared for the right one. Mr. Hill does a wonderful job making both men and women take

responsibility for how we allow others to treat us and how we treat others. Wonderful read.

Rob Hill Sr. hit the nail on its head on this one. I absolutely would recommend this book to everyone who is seeking true love. I'm a huge fan of Rob. He just makes sense. It was everything that I needed to hear. Very enlightening!

I enjoyed this short read, it wasn't full of scientific psychological babble. The author addressed real issues and barriers that limit, hinder & destroy relationships. He also kept it positive noting that a relationship must nurture the physical mental & emotional in order to thrive. He reiterated that no relationship will survive unless each person knows themselves before entering into a committed relationship. I recommend this to anyone in a relationship or considering one.

This book is a good reminder of what is important in relationships. I agree with a lot of things in this book but there are things that could have been discussed that aren't. Overall all the book makes valid points and provides examples for men and women on how relationships should be.

Its great to see someone elses perspective in relationships. And was very surprised he is only 2 years older me and somehow new so much more about relationships. Its just interesting to see how others perceive relationships. Sent it to my friend who would really like this more so than me. But good insight.

So there are plenty of relationship books out there and while I wouldn't consider this to be an instructional book, it's really good. There were plenty of Aha! points in the book and I'm going to liken it to The Seven Spiritual Laws by Deepak Chopa: this is worth reading over and over again as you navigate becoming a "hopeful romantic" :)

This book helps you stay on track on what is important to you when it comes to a romantic relationship. It confirmed for me that my standards aren't too high or unrealistic in what I expect from my guy and what I want the course of our relationship to be like.

as a person who has yet to experience a healthy relationship i appreciate the information that was in this book. i do wish mr. hill had gone into a little more detail on somethings, but as stated i appreciate the info that was in the book. as i work through my fear of relationships i will keep this

book by my side as a reference.
