ChemConnections Activity Workbook

Synopsis

Make chemistry memorable: choose from fifty-nine collaborative activities that will make your general chemistry lecture, recitation, homework, or lab more relevant, interactive, and collaborative. The ChemConnections activitiesâ•grown out of the popular ChemConnections modulesâ•are each in the context of environmental and societal issues that are interesting to both faculty and students. These activities, influenced by chemistry education research, are written with attention to pedagogy and student learning styles. Faculty will be able to use a variety of activity styles including data analysis, labs, worksheets, and discovery.
