2017 Fractals: The Art Of Doug Harrington Wall Calendar

Synopsis

Zoom in or zoom out, and you will find within a fractal the same simple but irregular shape replicate itself in complex patterns. While these often resemble structures in the world around us a nautilus shell, a snowflake, a spider's web, nature has its limits. But the fractals devised from mathematical formulas are infinite, both outwardly and inwardly. Fractal geometry creates a space where repetition is beauty, where math is art, and where perfection is possible. For nearly twenty years Seattle artist Doug Harrington has been making digital fractals that seem tie-dyed, faceted, or kaleidoscopic. Each piece, based on an original formula, is unique.
